Professional Summary

Full Stack Developer with hands-on experience building scalable web applications using MERN stack and Next.js. Developed AI-powered platforms and role-based systems handling real-time workflows. Strong in REST APIs, authentication, and backend architecture, with working knowledge of Docker, CI/CD, and AWS.

Technical Skills

Frontend: React.js, Next.js, JavaScript

Backend: Node.js, Express.js, REST APIs, Authentication

Databases: MongoDB, PostgreSQL

Cloud & DevOps: Docker, CI/CD, AWS (EC2, S3)

Education

Bachelor of Science in Computer Science CGPA: 8.65	2026
Thakur Ramnarayan College of Arts and Commerce, Mumbai	
Higher Secondary Certificate (HSC) Percentage: 52.33%	2023
Shankar Narayan College of Arts and Commerce, Thane	
Secondary School Certificate (SSC) Percentage: 84.60%	2021
Abhinav Vidya Mandir, Bhayandar	

Professional Experience

Full Stack Intern at SDAC Infotech	Sep 2025 – Dec 2025
- Developed an Import–Export ERP system using MVC, improving workflow efficiency by 30% - Implemented role-based authentication and optimized MySQL schema, reducing data redundancy by 25% - Built responsive seller dashboards, improving usability and reducing manual tracking efforts by 35%	

Projects

FutureFlow - AI Career Guidance Platform (Live Demo)

- Helped users generate AI-based career insights, resumes, and job preparation guidance
- Developed AI-driven resume builder and cover letter generator with dynamic content generation
- Implemented real-time industry insights showcasing in-demand skills and salary trends
- Designed secure authentication and user profile management using Clerk
- Built scalable backend using Next.js APIs and PostgreSQL with Prisma ORM
- Deployed production-ready application on Vercel

Tech: Next.js, PostgreSQL, Prisma ORM, Gemini API, Clerk Auth, Inngeist, Vercel

Sarva Sahayak (Download App)

- Enabled centralized coordination between NGOs, colleges, and volunteers for social activities
- Implemented NGO onboarding and verification workflows for centralized management
- Developed event coordination and communication features for students and organizations
- Built automated volunteer attendance tracking to improve transparency and reporting
- Designed scalable backend using Firebase and Cloud Functions
- Delivered intuitive cross-platform user experience

Tech: Flutter, Firebase, Cloud Functions

Eventra – AI-Powered Event Management Platform (Live Demo)

- Provided real-time event management and filtering system improving user experience
- Implemented custom auth by validating Clerk user IDs in Convex backend
- Designed scalable backend for event creation, filtering, and user sync
- Developed features like category filtering and free/paid event handling
- Optimized performance and handled edge cases in authentication and event visibility logic

Tech: Next.js, React, Convex, Clerk, Tailwind CSS
